COURTS, CRIME AND PUBLIC SAFETY

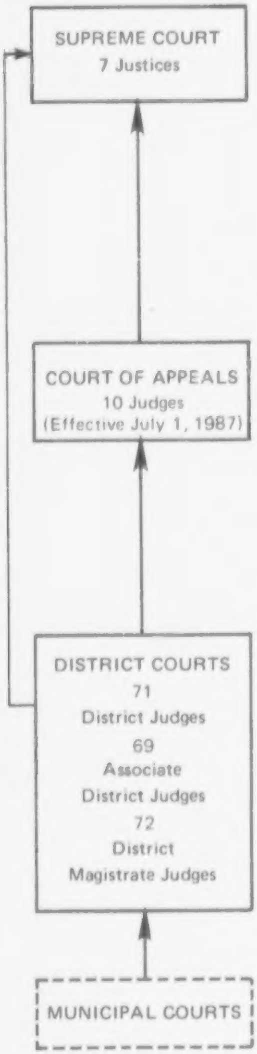
KANSAS JUDICIAL SYSTEM

(Unification January, 1977)



Original jurisdiction in proceedings in quo warranto, mandamus, habeas corpus, and direct appeals in criminal cases involving serious classes of felony or life imprisonment. Appellate jurisdiction in cases in which a Kansas or United States statute has been declared unconstitutional and in criminal cases in which the defendant has been convicted of a Class A or B felony. (The Court has discretionary power of review over decisions of the Court of Appeals, and may transfer cases from one court to another.)

Intermediate appellate court with jurisdiction over all appeals from the district court except those reviewable in the district court and those in which direct appeal to the Supreme Court is required. (Effective 1978—exclusive jurisdiction over the review of orders or decisions of the state corporation commission in public utility rate cases.)

Court of record with original jurisdiction in civil and criminal cases and limited appellate jurisdiction. *District judges* exercise full power and authority of the Court. *Associate district judges* have concurrent jurisdiction. *District magistrate judges* have jurisdiction over probate and juvenile matters, misdemeanors, felony preliminary examinations and certain civil actions involving amounts of $5,000 or less.

Municipal courts exist as entities of the cities which establish them, but they have jurisdiction over ordinance violations only, and therefore, are not state courts.

Unification of the state's trial courts was effective January, 1977. Probate, juvenile, county courts and magistrate-level courts of countywide jurisdiction were abolished. The jurisdictions of these courts were consolidated into the district court. A court of appeals was also established as an intermediate appellate court. The Kansas Supreme Court, Court of Appeals, and District Courts constitute the unified state judicial system in Kansas.
